CHAMBER OF COMMERCE AND INDUSTRY

AKSARAY

CHAMBER OF COMMERCE AND INDUSTRY

Aksaray is a province in the central Anatolia in Turkey where main roadways along east to west and north to south is intersected. Its adjacent provinces are Konya along the west to South, Niğde to the southeast, Nevşehir to the east, and Ankara with Kırşehir to the north.

Distances to Majör cities;

İSTANBUL to AKSARAY 750 km , ANKARA to AKSARAY 220 km, KAYSERİ to AKSARAY 145 km,
KONYA to AKSARAY 145 km, MERSİN to AKSARAY 200 km

Our Chamber is a non-governmental organization established by law No. 5174. Ali Ozturk is the Chairman of the Assembly. Under the leadership of President Murat DURSUN, as the Aksaray Chamber of Commerce and Industry, we have been working to serve more modern, faster and better quality services to more than 4000 active members with the staff of 11 persons. Not satisfied with that as a civil society organization leading Aksaray, we are dealing with the problems of our city. We are developing projects for the improvement of the economic and social life of our city. We have adopted serving to our home town as a basic principle..

ACTIVITIES

VOCATIONAL TRAINING COURSES

This is one of the most important issues in our field. During this time, in order to eliminate the need for qualified personnel, courses have been given in the areas of secretarial and cashier training to increase professional skills.

As it is known, almost all governmental supports or EU supports are project-based and are being carried out on this issue. As ATSO, in order to do our duty and to increase the capacity of project development in our province, 100 people have been trained on how to write the project on 4 courses.

UMEM COURSES

Within the Specialized Vocational Training Project, 18 courses were held especially in areas; Gas metal arc Welding, Furniture Surface Processing, Mold, Natural Gas Pipe Welding, Electrical panel design, computer-aided design, CNC Training, PLC courses, Plumbing Course, Building Insulation Course, Computer Maintenance and Repair, Web design. ATSO as a coordinator, these courses were given to 280 unemployed people in the coordination of ISKUR and Industrial Vocational High School.

COURSES FOR EXPORT

Within the Export Management and Customer Discovery Techniques Training Project, 60 people were trained in the export on a 3-month course . This project was carried out with trainers created by Fatih University and Undersecretariat of Foreign Trade. The project aimed to eliminate the qualified staff needs of workplaces who want to export.

LOCAL FAIRS

Between the years 2009-2012, breaking the record for the history of ATSO, we took 1500 ATSO members to most popular 32 domestic exhibition in Individual sectors. Members participated in all sectors of trade fairs and business innovations and contributed to bilateral business meetings.

INTERNATIONAL FAIRS

We took 50 members of ATSO to the Germany Hannover International Industrial Fair and Germany Berlin Building and Construction Fair with the support of KOSGEB (60% of the price paid by KOSGEB).

ONGOING PROJECTS

To expand the export capacity of Aksaray, Ministry of Economy supported "Machine, Metal and Auto Ancillary Industry Sector Firms Export Cluster Project" continues within the scope of the notification on the Supporting the Development of International Competitiveness.

We made our changes on the project of establishment of new services to meet the needs of qualified staff. From the moment it began, our building will be available continuing education center.

Wide variety of industry branches available in AKSARAY

AKSARAY INDUSTRY ZONE AREA

Agricultural machinery and furniture industry are one of the large scaled industries in Aksaray aswell. Therefore , there are companies focus on producing storage silo systems where one produces panel radiators. Beside these, Wide range of industry branches still serve many opportunities to Aksaray. In the industrial zone, more than 150 factories located and offers directly more than 5000 jobs.

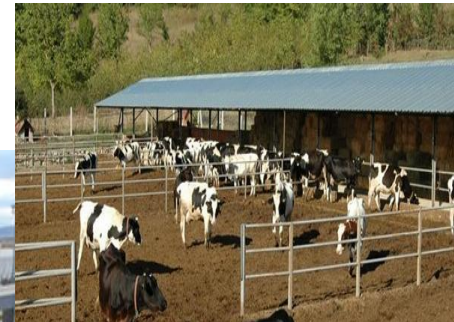

AUTOMOTIVE INDUSTRY

Aksaray has been an attractive city for the investors and entrepreneurs both domestic and abroad. The most important and the biggest investment is the Mercedes-Benz Truck Factory.

LIVESTOCK AND DAIRY INDUSTRY

Aksaray is very attractive in production of clover, corn for silage and quality barley along with cattle raising for milk and meat and thus, it has been attracting investments continuously. SÜTAŞ has a dairy production facility in Aksaray, one of the biggest in region and in Turkey.

AUTOMOTIVE BODYWORK INDUSTRY
