

Zespół Szkół nr 10 im. Bolesława Chrobrego w Koszalinie

- School complex nr 10 in Koszalin is a school with great traditions dating back to 1960's
- Since then it is famous in Poland for building go-carts. Then our students also built the biggest race track in the north Poland.

School Complex number 10 in Koszalin is the centre of vocational education.

It provides professional development for future car technicians, mechanics, IT and transport specialists.

There are 500 students and 60 teachers in our school.

School Complex number 10 includes:

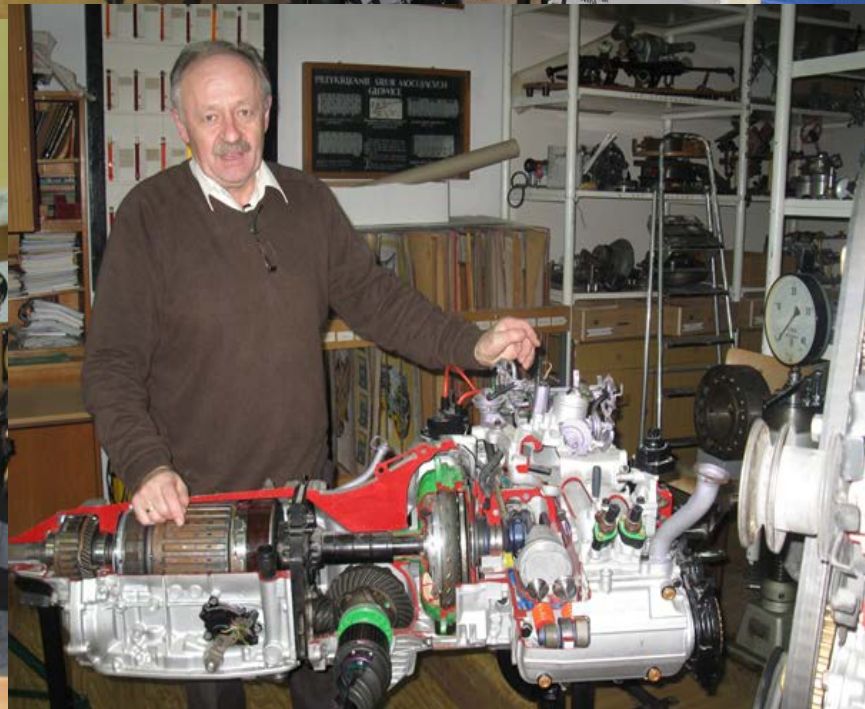

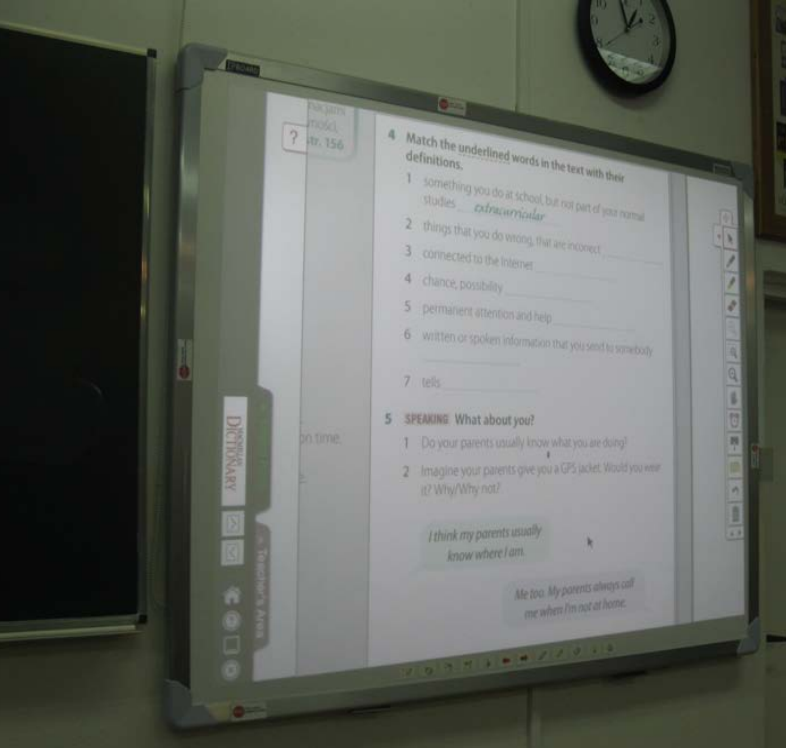

- 4 year technical school for mechanics
- 4 year technical school for car technicians,
- 3 year complementary school after vocational school
- 3 year vocational school

Among classrooms designed for the purpose of general subjects there are some intended for vocational subjects. They have been constantly improved and modernized. We also offer facilities for developing our students' physical condition.

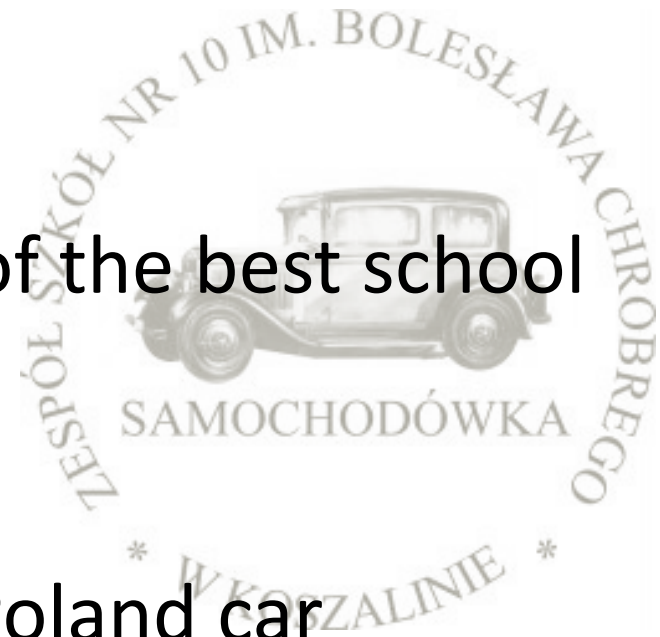

As the only school in Koszalin we have workshops where our students can put their theoretical knowledge into practice.

Apart from providing professional practice our workshops are in the car service sector

- The school received the title of the best school for car mechanics in Poland
- Our students take part in all-Poland car mechanics contests and they come back with the best prizes
 - I place in the 4th All-Poland Castrol Academy Contest (2011)
 - II place in Rotax MaX Challenge Cup (2011)
 - II place in the 3th All-Poland Castrol Academy Contest (2010)
